[Correspondence of the Whig & Courier.] Washington, June 11th, 1938. TOXVID PRINCES DISTRICT AFFAIRS EXECU TIVE AFFAIRS GENERAL ATKINSON IOWA THE SUB-TREASURY BILL.

of Representatives who is a caricature to look at, and a laughing stock; whenever he acts, speaks, or in any way meddles with the business of the nation. His name is Petriken, and he comes from the centre of the Pennsylvania mountain ranges, with a white hat as broad as a corn basket, a coat as dingy and dirty as a rye anticipate as one of the consequences of devouring sour croat by the barrel a month, and known to himself has been a declared fue to this District, a thwarter of all plans for its behoof. and a general "wet blanket" upon all efforts to aid it by wholesome legislation, ever since he has had a scat here: If would be an act as good as any thing Judge Lynch ever did, were he to place himself at the head of some wight or ten come to the conclusion that to effect his object, stout District of Columbia men, and taking-up this absurd piece of comical yet vexatious ab. surdity, and transplanting him to the top of one of his own Alleghany peaks, leave him there, in a sitting posture, with a big stone on each leg, till this Congress adjourns. The country would gain by such a decree from his honor's

Here has this person been bothering the house all this livelong day, (devoted to the affairs of this district, specially,) and preventing the completion of the important business for which it was set apart, in vexatious and indefensible objections against all this kind of business. And he, too, one of the dirty-work doers of an administration, that is continually employing its serfs to demoune the opposition in the House, for alleged attempts, and systematic efforts to "stave off," the public business, and waste the precious time of the House.

But the time for clearing the Augean stable of such cattle is well nigh come.

The Senate have been all day in Executive

It is now said that Gen. Atkinson, one o the most brave and experienced officers in the service, is to have the offer of the Governorship of the new Territory of Iewa. But I do not think the General would resign his present high station to assume the office. If he would, it would certainly be a very creditable appointment. His Indian experience will render him just the man for the Government of that Frontier Territory. Moreover, the gallant General adds to his offier good qualities, that superemi-

nent one of being a firm Whig of 1770 and 1823 The apposition to the presige of the Sub l'reasury Bill daily-gains strength In the lis I sent you the other day, I marked all said to called upon for that purpose! the Journal of Commerce, of the 11th inst as soon as the Pre-emption Bill is disposed of. Friday and Saturday, the Sub-Treasury hill tion of life and death for the party ". would not be reached before Monday, (this day.) It corroborates the statement of our correspondent that the opposition to the bill-is gaining strength, and says that "it is now confidently believed that there is a majority of FOUR VOTES, certain, against the bill, besides the chances of a number of doubtful votes. So that matter need give no further concern."

Boon's resolution for an adjournment on the 2nd of July wes not acted on, further than that the House refused to take it up. It is supposed that there is a clear majority for the resolution. No day is expected to be fixed upon until the Sub-Tressury bill is settled.

The new Treasury building is not to be pulled down, but the work will be prosecuted, whether faulty or not, in style and situation,

RUNDRE OF WAR. The Tories and their journals in Canada recommend war between England and this country. It is rumored that the commanding general of our army, Macomb, is ordered to the northern frontier. Gen. Respectfully address of to Me who have the Cour-IN PARTY.

Suppose our late President, Andrew Jackson, when he found himself selected for the first time to the Chair of State, and was about preparing his next message, had been suddenly seized with a misgiving as to the Constitutional. ity of the Constitution of the United States.

And suppose that, after casting about for reasons to justify his misgivings, he had lighted false, and what his best friends upon commitupon the debates and newspapers of 83, and teer proved to be false, over and over again. finding that many of our best and wisest He charged that institution with bankruptcy men were full of doubts and fears when the There is a pestilent Dutchman in the House Constitution was under way that Patrick Henry himself had prophecied of its overthrow and that many things which he had foretold had since actually happened. Suppose that after doing all this, President Jackson had become satisfied of the mefficiency, or in other words, of the unconstitutionality of the Constitution, and was determined to reform it how would miller's, a face such as ye might well enough he have gone to work? Would be have assail ed in the lump? Would he have denounced it openly and without reserve? or would be have a one which reaches half way down the broad confined himself to insinuations, and suggesof his back. This creature, for reasons best tions? Looking to the boldness of the man's military character, what could have been expected of him? That he would have descended to ed for it is founded, in the very nature of a comping, to misrepresentation, or to perty gen- Republic in common sense, gratitude and exeralship, let every man judge for himself.

> But suppose that after weighing the matter deliberately and mastering all the facts, he had his object must not be guessed at by the people nor even by the statesmen of the day : or suppose that, unwilling to hazard his whole papucharity on one throw, or not sufficiently enignits. ited by his published opinions, or not sufficiently exasperated by opposition or ridicule he had finally contented himself with suggesting for the consideration of the people one single reform? What evil would such a man be likely to pitch upon? Would he take one that was very doubtful? one for which there was no remedy? one that had nothing to do with the political opinions of the day? Or would he take some evil, about which most men were agreed and all of his own party? such, for example, as that arising from the re-election of a Chief Magistrate, who is charged with spending his of the bench, in the midst of such an excitefirst term-in strengthening himself for a second? ment as pervades that portion over which he is proceed? confidently? arrogantly or deferentially and with all submission to the dear desperation into which this Loco-foco adminispeople?

And now suppose that, having suggested a change of the Constitution according to his views, he had found that suggestion treated with neglect or scern how would be next be likely to proceed? Would not his doubts become certainty? his determination stronger? his views wider and larger and his reform a revolution? Nould such a man be likely to waver, or yield, or stop short of any thing but sort, to a favorite and long cherished purpose?

And now suppose that, hurried beyond himself he should be surp ised, no matter how by flattery or by falsehood into suggesting tracks of his "allustrious predecessor," and is another and a better constitution; may, into offering to draft one for Congress if he should be Suppose, the offer being made, and instead of

being received with submission and thankfulmost liberal concessions, the Bill must be de- ness it should be universally neglected by his triends and universally decided by his enemies. now, suppose all this, and what would such a man do next? Would be not be likely to denounce not only the Constitution and the whole Constitution, but all its triends and supporters? Would not a thousand new, and violent, and Congressionally &c. The correspondent of vindictive charges be made against it? and would not he, and all who had committed themstates that the Sub-treasury bill will be called up selves to like opinions, stand up together and wage a war of extermination with every fact. The latter is expected to be very fully discuss principle and measure relied upon, or appealed zed, and as Mr. Prentiss would speak at length | to by the defenders of the Constitution ?- To say on this bill, and as private bills came up on all in a word would they not make it a ques-

> And then after all these things suppose they had prevailed! prevailed to the overthrow of the Constitution of the United States how long would they have held their places think ye? How long before the earth would heave and the burial places of that Constitution begin to thunder and lighten with relibbution?

All But you will say these things could never happen in our free country. Even Andrew Jackson would never have been permitted to go so far! Indeed! are you sure of this quite sure? Has its not gone almost so far time and again, not only without the rebuke of this mighty people, but for a season with their heartiest approbation? Has he not, in fact, made unother Constitution for us by claiming to interpret it as he pleases, and to understand as he pleases, all its provisions? Has he not repealed parts, and changed others in practice? What has become of the appointing power? of the removing power? of the sanction of the Benate? of the veto power? of the dependence of the Secretaries upon Congress and the people?

Do you still deny that he would ever have been permitted to go so far? then take up the whole history of Andrew Jackson's war upon the United States Bank and go all over it, s.ep vary from the suppositions above presented to the people of Maine. The cases are exactly parallel.

Bear with us, for a moment longer. When Passident Jackson bogen his war upon the Unithe minds of our people, or state by more a valuable reserve of the minds of the distribution of the distr

He began to found them very irritable when salled by this doubt his doubts grew stronger, and after a name. Now, as we wish to call every man and while, from beginning to question the constitutionality of the Bank, he went on till he denied the clearest lacts, and stated in his annual mensages what every body knew to be absolutely with having failed in its chief purposes with being unable to regulate exchanges! We. We. &c. and he persisted until his best friends were ashamed of him ! And what is, the result ? The bank was overthrown buried and forgotten by all the newspapers for perhaps a month

only to burst its cearments and come forth stronger than ever and more glorious than ever! purified as with fire, and completely re-established in the favor of the people. "Just he it would have been with the Constitution of our great l'athers, had he preveiled for a season against that, by his alarming energy and popularity, so has it been with the inextinguishable spirit of that institution. "Look on this picture and on this." Mr. Petton, or Virginia, was not allowed to etain his seat in Congress after his appointment to the Executive Council of that State till the Sub-Treasury_Bill was disposed of, but was compelled to resign in consequence of the savage yells of the Globe, the Enquirer and other Loco-foco prints. He was opposed to the billy-

Mr. Bronson, of New York, was appointed to a Judgeship in his own State about the same time, but he holds on for the purpose of voting for that odious and oppressive measure, notwithstanding the course of justice is impeded in his county, the very theatre of the disturbances on the frontier. The Spy in Washington well remarks that "a greater outrage was never committed by a judicial officer, than the abandonment for political party purposes, the duties And having seized upon this how would he to preside." This goes to shew, emong hundreds of other instances, the extreme state of tration has been driven. The people will take the business into their own hands.

If Any one at all conversant with the poli-Banks, was to get the control of the money of the people against these valuable institutions, when rightly managed. This accomplished, the overthrow, if he encountered opposition of any collustrious predecessor" put his "foot upon the neck of the monster" and demolished it, and lower in the footsteps" placed his feet in the determined to keep them there, despite the sufferings of the people, who have been deprived of a sound currency by such mad acts.

> Now who suffers by a continuance of such incasures? The merchant, the mechanic and the under and so does the farmer, for we are dependent upon feach other. For deprive the business man of the means of doing business, and you deprive the furmer of a good market and cash for his produce, and the mechanic and laborer of employ.

Such being the state of things what will the cople do? Will they support their present rulers at Washington, or support men who uphold and advocate such measures? If not, let them rouse themselves, and come to the rescue and place and keep such men in power as will consuit the interests of their masters, the people

Benton's Prorriety. Jenks, of the Nantucket inquirer, says that a "silver sel," four feet long, and weighing seven pounds, has been caught in a river in the Western part of Massachusetts. He thinks this is the first practical indication of the "Great Bamboozler's" prophecy about gold and voyages up the Mississippi. A slippery indication of a slippery fellow's prophecy of an exceedingly slippery thing.

ANOTHER ACCIDENT. The St. Andrews Standard says that on Thursday the 7th instent, a small boat containing six persons two captains, a mate and three seamen belonging to the barques Fasque and Francis Lawson was upset in the river near that place, three of whom the captain of the latter, Mitchinson, and two scamen of the former, Wm. Reswick and James Souter, were drawned. The others were picked up by a wood boat, but Capt. Stockpole of the Fabque expired shortly after he reached the

But a change has come over their spirits, or the most of them, notwithstanding there are a few who still acknowledge the name Loco foco, while others are vexed with it, and are determined to petition the Legislature of New Hamp shire for a change of name, should the Whiga persist in calling them Loco locos-

MANY SUBSCRIBERS. Up Country, June, 1838.

Ilp realy to the above communication, we would say that we do not pretend to "keep the run" of the ever-changing "Advertiset," "Post," Democrat," or by whatever name the Loco icco organ in this city may be called. As we have not files of the same on hand, we are unable to state whether that organ "did take upon themselves and the whole party the name of Loco foco." One thing is certain, however, the writer of the above will be satisfied from the following article, copied from the "Voice of the People," that the name is peculiarly appropriate, and that the organs of that party are endeavor-

come it"- the name and principles are too

strongly identified. They must change their

principles before they can be absolved. Fditor]

Loco-Foco ... We see the Argus is very anxious to shift off the name 1-oco-roso, as applied to the supporters of the present National Adminstration, and even to apply it to the Whigs It therefore becomes proper, if not necessary, to inquire why the term has been applied as it has been by us. The original Loco-Foco party aprung up in the city of N. Y. some ten or twelve years ago, under the teaching of Frateis Wright and her disciples, Alexander Ming, Skidmore, and others. Skidmore wrote a book which acts forth their doctrines in full. He attempts to tics of the country knows that the object of the prove that the Bible is a fiction that the whole Jackson Van Buren party in destroying the constitution of society in christian countries is wrong that there should be no corporate bodies and no Banks that no property should be inthe Government to speculate upon. They com- herited by heirs, but every man's property at his menced with decrying all Banks, and setting | death, go to the State, to be divided among the whole people of the State and that every few years the property of the rich should be devided among the poor. Fanny Wright and some others, in addition to these doctrines, contended that marriage is not a binding institution, but with it the currency of the country. The "tol- | should be entered into and disolved at the pleasure of the parties. These and a great many other strange vagarics have been maintained by the agrarian orators in New York, and elsewhere Abner Knecland has adopted many of them in They are in fact a revival of the wildest and most demoralizing disctrines of the French infidele, who deluged France with blood, and turned the Revolution of that fine country into a by word and reproson, and finally into despotion. Robert Dale Owen, himself an honest but visionary man perhaps the first to originate the party, by his plan of a new social system as established in New I snork in Scotland, and afterwards at New Harmony to Ohio. As conducted by him, however, his community was purity, itali, compared with the destructive principles to which plan led, in other, and worse hands. The party of these agrarians and infidels was small at first but has for years been steadily increasing, not only in that city, but in various parts of the country, the fountain head being the city of N. York As soon as they began to make themselves felt in political affairs, they were found arrayed on the side of the administration of Gen. Jackson, and acquired the name of Loco-foco from the following circumstance. In 1834 or 35, they composed a large portion of the Tam-

ny or Jackson party in the city of New York, but the our Tammanies did mid intend to let them rule. At a meeting to make regular nom-inations, the old Done had gone in at a back door of Fammany Hall, keeping the front door botted until they had got complete posses-sion of the room, organized the hierting, made the nominations, and Turn let in the tag-ragand-bob-tail of their party. As soon as the front door was unbolted and the losiers came in, the gas lights were extinguished by the OLD Tammanies, and the crowd left to find their way down steirs as they could. The trick had been played several times, but on this occasion the naters were prepared for it, and as soon as the lights were out, forthwith each one took & locofoce match out of his pocket, and struck a light for him-lf. In an ippeant, a handred candles were burning; the agrarians reconsidered the shotton to stipura, taganized anew and reade their sank againstings. Higher they sequired it - sognouse of Loco-Focos, which has graduals ly been extended to the while party in power. The original Luco-fose party is now the symbinent Admini tration party in New York and completely suppleated the our Toniman's, and

completely suppliented the old Taniman and then the peression of Tanimany Hall.

We now preced to show why the mane has been, and it ought to be applied to this party.

In the first place, the principles and policy of the New York Loco focos, have been in a great measure adopted by Mr. Van Boren, whose this well have been the principles of the New York Loco focos, have been in a great this is good, and the way well out the new York Loco focos, have been in a great this is good, and the way well out the new York Loco focos, have been in a great this is good, and the way have the vicinity children and the principles of the principles of the principles.

"[From the National Intelligencer'] FROM THE CHEROKEE COUNTRY.

We learn, through the medicia of authentic publications in the Georgia Resorder of the 5th inst, that Major General Scott presended to carry into effect his orders to oblige the Cherokees after the 23d ultimo, to e nouste the territory heretofore held by them within the limits of the State of Georgia. His measure 1 wellno resistance. On the 28th he had under ille
control, 3000; and before this time, it is suppeaced that not a wandering Indian remains within the territory of Georgia. The manner ut which this duty has been performed by the distinguished General, is praised for its kindness. humanity, and fi-cdom from violence. This information is gratifying, for surely there is eout adding to it unnecessary violence.

We rejoice for the sake of our fellow cilizens of Georgia, as well as for that of the Indiana, that, so lar, all goes on as it does, with as little difficulty as could possibly be hoped. Georgians themselves appear to be sincerely gratified that it has so turned out; and the friends of the Indians, who camput enter into all the feelings of the Georgians and other Southerners on the subject, will yet not less rejoice than they that the policy of the Government does not end in blood.

PADRELS FARET Prand Superfine Gen-END. error Plants Fre sale at No 3 Smith's No-1, 12 PREDERICK LAMBERT.

THE most safe, effectual and economical remedy for diseases of the Human Constitution, that

These Pills are composed patienty of materials exracted from Medical Plants, and are warranted not to contain one particle of mercury, or any mineral substance. Dr. Kingler, the inventor of this valuable medicine, from his knowledge of the human system derived from a long and Extensive practice, his arrived to the conclusion, that the great and primary cause of most diseases is à derangement in the functions of the liver; or in other words an in-

creased or diminished screttion of the Bile.
So will is this understood, that it is common for. stomach. On the other hand, when the flow of bite performed, the patient liecomes weak antiemacrated, coagre nourishment contained in the food taken into the stomach is not properly extracted, and the is ejected in a crude state. Dr. Kingley is confident that the famous Hygean Theory, so called, that impurity of the blood is the cause of all diseases, is a great absurdity. Every one who reflects upon the subject a moment, will perceive that impurity of the blood is a secondary, not a primary complaint: the effect, and not the couse of the disense: When the functions of the liver are deranged; and the floof bile increased, it is often taken up by the absorbent vessels and carried into the circulation, and hecomes mingled with the blood as in Jaundice, when the patient shows it in his countenance. Now this impurity of the blood is caused by an merensed now of the bile, and to remedy it you must correct the secretion of the liver and restore it to a healthy state.

Dr. Kingley has spent much time in experimenting with different vegetable medicines, for diseases the liver, and now offers his Universal Ramily Pills as the best, most convenient and cheapest medicine that can be prepared for general use; and in offering them to the pulling, he is, extuated more by benevolent than pecuniary motives, as the price the medicine will show.

Dr. Kingley flatters himself that his long experi menting with regetable medicines has enabled him to discover the true and only substitute answering all the purpose of mercurials, without any of their attendant evils. One great quality of his family Fills is, that they have the alterative principle combined with their eathartic or operative quality, so that they not only cleanse the stomach and bowels by purging, but they regulate the liver, change the morbid secretions, strengthen the digestive organs, purify the blood, invigorate the circulation, and give one and energy to the nervous system.

They are mild and pleasant in their operation, and almost immediate conviction of their utility from the tirst dose. They can be taken with safety by persons of any age, and the feeble, the infirm, the norvous, the delicate, are strengthened by their opera tion, because they clear the system of bad humors, quiet pervous irritabilities and restlessness, from chatever source, and invariably produce sound

The Family Pills are an invariable remetly for aundice, sick and nervous headache, dyspepsia, estiveness, sickness of the stomach, heartburn, all bilious complaints, levers of all kinds, and if taken at the commencement will invariably check their progress, and save the patient from a protracted and dangerous sickness. They are invaluable in nervous and hypochondriacal affections loss of appetite, and all complaints to which females alone are subject. They operate as a mild and speedy purge, and are a safe and certain remedy for worms in

I might publish a small volume of certificates but consider it unnecessary, as the medicine will recomnend itself to all who will make trial of it JOHN KINGLEY

These Pills are put up in next hoxes of two sizes; the small size contains 25 Pills, and the rotal price is 25 cents, the large size contains 60 Pills, the price is ou cents.

I'r PALMER & BLAKE have been appointed agents for the above pills for the New England States. Druggists and others can be supplied cholesale and retail, upon application to them at No. 44 Hanover street, Boston, or to J. E. LADD, Augusto, agent for the State of Maine.
